

## Preliminary Product Information ZOUCHcoll 4491

**Description** ZOUCHcoll 4491 is a hotmelt rubber adhesive tape.

**Application** This tape is usually used to create fingerlifts in different medical applications; it is available in different widths.

Product Properties (Not for specification use)	
carrier	blue polypropylene carrier
adhesive	hotmelt rubber based adhesive
colour	blue
tack (finat)	1260 N/m (acc. to ATM-T04/001)
adhesion: 90° peel to polyethylene	320 N/m (acc. to ATM-T04/100)
thickness: adhesive & carrier	94 micron (acc. to ATM-T04/100)

### Surface preparation

It is essential, as with most pressure sensitive tapes, that the surface to which the tape is applied is clean, dry and free of grease and oil. In some circumstances in which maximum adhesion is not requested for a specific purpose, another procedure needs to be followed in consultation with Zouch Converters.

### Storage and shelf-life

Two years when stored at 21°C, 50% relative humidity, out of direct sunlight, in original packaging.

Unless stated otherwise all values given are average. All of the tapes in our range should be thoroughly tested on the substrates in the particular application they are intended for. Zouch Converters Ltd will not be responsible for product failure unless full testing has been completed. The customer has to decide on the tapes suitability for the intended application.
