

Preliminary Product Information ZOUCHcoll 7019

BOPP Filament Reinforced Packaging Adhesive Tape

Description	ZOUCHcoll 7019 is a 28 μ bi-axially oriented polypropylene film reinforced with monodirectional glass filaments coated with a rubber based adhesive system, with 130 μ total thickness. Recommended for general building, packaging and palletising applications.
Application	The superior qualities of ZOUCHcoll 7019 which include high tack, high tensile strength, reduced stretching and continuous temperature resistance at +50°C make the product ideal for box reinforced sealing, bundling and palletising of boxes. It is also suitable for a variety of medium to heavy duty domestic packaging and sealing applications at home, in the office and in a wide variety of industries.
